

SIETAR Austria Culture Talk: From „Sound of Music“ to „I am from Austria“. Insights into the Austrian culture.

How to survive in a country where rules are more of a recommendation and titles are more important than names? This evening will give you insights into the Austrian mindset: does the Austrian really prefer the known, tested, and is resistant to change? The presentation of the Austrian cultural standards will give you the answers and you get the opportunity to test your knowledge on Austria in an interactive way. Prepare yourself for a “gemütlichen” evening!

Saskia Lackner, is an intercultural psychologist with a masters’ degree in psychology specialized in cultural psychology and intercultural competence/trainings. Since 2010 she has been living in Vienna where she is currently lecturer at the University of Applied Sciences. She also worked in the field of diversity and inclusion and volunteered in several human rights projects.
